

## Internet configuration via WIFI

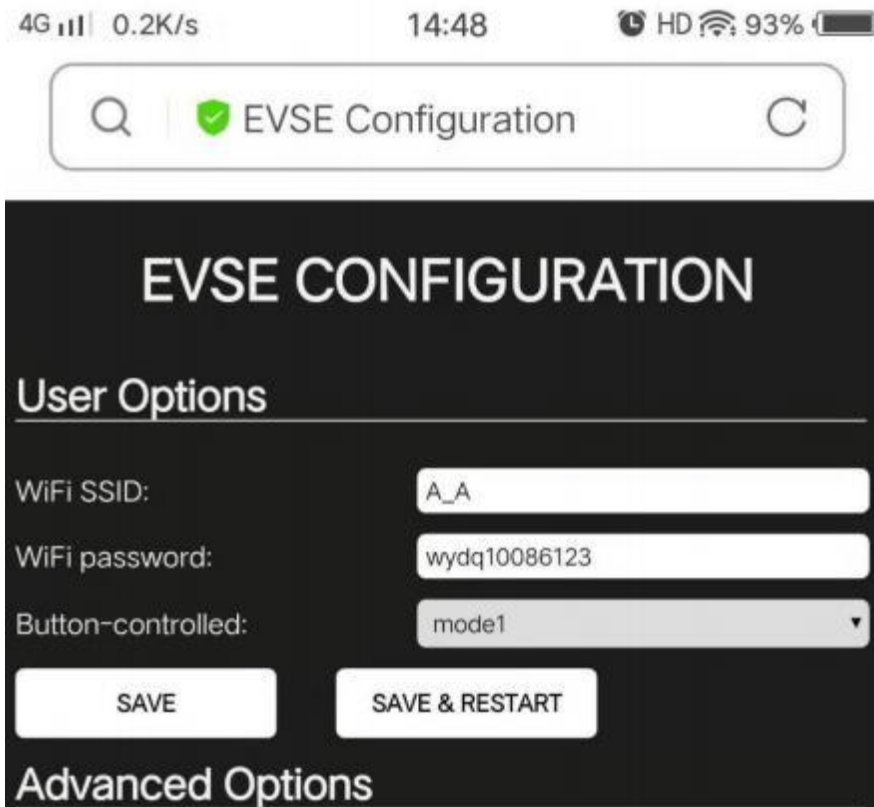

1. Restart the charger
2. Turn on your phone's WIFI function
3. Find the charger's hotspot with name "EVSE-XXXXXXX"(XXXXXXX means the last 8 pile number, for example "EVSE-8255964"), and connect it, don't need a password. (if you don't find the hotspot with name "EVSE-XXXXXXX", please restart the charger).

4. Open your phone's browser and fill the website "http://192.168.4.1"
5. Fill the default password "12345678".

6. Set you WIFI name and password.

7. Save, and restart the charger
